

WILSON CLAR G. O. P. MADE LEAGUE ISSUE

PRESIDENT IS CONFIDENT THAT PEOPLE WILL STAND BACK OF HIM.

VOTERS WON'T BE DECEIVED

Declares Republican Platform Makers in Chicago Did Everything to Camouflage Real Question.

New York.—President Wilson, in a special interview given to the New York World to be published tomorrow morning, said he was "extremely confident that the Democratic convention at San Francisco will welcome the acceptance by the Republican party of my invitation to make the League of Nations the issue on this campaign."

"I am even more confident," the President said, "that such referendum will confirm my faith that the American people desire it above everything else that a political party now may provide, and that they will condemn the Republican party of denying them the consummation of their hopes. No one will recommend a referendum on that issue more than I."

"I suppose I should feel flattered," he said, "over being made the issue of the presidential campaign by the Republican party, but even the effort of the platform makers at Chicago to confer the distinction of being not only a burning, but a living issue by camouflaging and obscuring the real issues will not deceive the people."

The processes by which the Chicago platform was accomplished seemed to me to have been essentially and scientifically Prussian in inspiration and method. Instead of quoting Washington and Lincoln, the Republican platform should have quoted Bismarck and Bernhardi, because the Republican attitude regarding the supreme issue that cannot be abandoned or disregarded strongly suggests the arbitrary influences that dictated the doctrines of those two eminent persons.

"Every charge directed against me and my administration is obviously designed to belabor and negative the paramount issue confronting the people of America, to befog their sense of responsibility and make violation of the obligations they have assumed to be of small consequence. I sincerely believe that the attempt of the Republican party to win the sanction of the American people for its attempted evasion of these obligations will be decisively rebuffed."

"With one thing I am fully satisfied. This is that the Republican party in its platform has joined me in the suggestion I made in my letter to the guests at the Jackson Day dinner in Washington in January last. In that letter I expressed the hope that a sincere attempt would be made to determine the attitude of the American people on the League of Nations by the resort to the genuinely democratic process of the referendum."

NINE HELD FOR "TARRING AND LEAVING" A DOCTOR

Fraternity Men Accused of Mistreating New Candidate During His "Initiation."

West Orange, N. J.—Warrants charging assault and battery were issued for nine members of the Beta Sigma Fraternity of the West Orange High School as a result of allegations of Dr. Howard Applegate, a dentist of this city, that he was "tarrered and leaved" in the woods near here recently during his "initiation."

Dr. Applegate declared he was blindfolded, stripped, his body greased, tarred and covered with leaves; that he was beaten in the face, that molasses was poured into his shoes and he was threatened with stoning if he moved. He said he remained in the woods for three hours and then made his way to a pharmacy.

William Kille, one of the defendants, denied that Dr. Applegate was "tarrered and leaved."

"The whole thing seems like more or less of a joke," he said. "Dr. Applegate was not dealt with any more severely than any of the other members who previously were initiated."

HOOVER SAYS HE WILL SUPPORT HARDING

CALLS UPON ALL TO VOTE THE G. O. P. TICKET.

Declares Platform is Constructive and Progressive and Has But a Few Faults.

Washington.—Indorsing in the main the action of the Republican National Convention at Chicago, Herbert Hoover, in a letter to friends, made public after he had conferred with Senator Harding, the Republican presidential nominee, called upon all elements to the party to support the national ticket of the polls.

Hoover declared that the greater part of the Chicago platform is constructive and progressive and that "nothing prevents the compromise planks on labor, the league, etc., from being given a forward-looking interpretation." He added, however, that "some things, including a reorganization of our election expenditures and the primaries, are not adequately dealt with."

"Nothing could be more disastrous," he continued, "than the development of several party organizations representing the complexion of every group in the country. If we should come to this position, we shall be entirely ruled by log-rolling minorities or sterile political coalitions."

The former Food Administrator declared that it was the duty of those Republicans who hold "more definite views" to endeavor to bring them to realization within the party organization itself as the issues on which they bear arise.

"If the republican party is not to be irretrievably split," declared Hoover, "I cannot conceive that Senator Harding will for one moment submit the administrative side of the government to the domination of any group or coalition."

GOMPERS LOSES FIRST BIG LABOR FIGHT

Federation, at Stormy Meeting, Indorses U. S. Operation of Roads—Leader's Salary Raised \$2,000.

Montreal.—The American Federation of Labor's indorsement of government ownership of the railroads at its annual convention here was declared by labor leaders to have been the first genuine defeat Samuel Gompers, its veteran president, has suffered in years.

The first vote was 20,050 for government ownership and 8,349 against.

The decisive vote, it is reported, prompted the labor chief to state before the convention that he "was not quite sure" he would be a candidate for re-election.

Gompers fought hard against the convention's action, declaring it was a step toward the "enslavement of the workers as government employees," who, he said, had been denied many political and economic rights under the past administrations. He received only a mild ovation.

The United Mine Workers and the powerful railroad workers' organizations combined to bring about President Gompers' defeat. They had the support of the Machinists' Union and the Metal Trades Organization, all powerful voting factors.

The Carpenters' Union and the Building Trades organization stood loyally by Gompers, but were overwhelmed.

After the federation's action, the Executive Council, whose members supported Gompers, are said to be placed in an embarrassing position. They must take steps to bring about government ownership, which they have opposed, or resign, it was stated.

Supporters of Gompers declared that they would urge him to retain leadership of the federation and stand up for re-election for the thirty-ninth time.

Despite the protest and desires of Gompers, the convention increased his salary as president from \$10,000 to \$12,000 a year.

In appealing to the delegates not to give him an increase Gompers declared that \$10,000 is all sufficient for a man living in the ordinary mode of life to satisfy him and his needs."

ARMY OFFICER'S WIFE MYSTERIOUSLY SLAIN

La Grange, Ill. Youth Is Held for Murder at Dartmouth College.

Hanover, N. H.—A student quarrel over whisky resulted in the killing of Henry E. Maroney, of Medford, Mass., a senior at Dartmouth College, and the arrest of Robert T. Mendis, of La Grange, Ill., a junior, charged with the murder.

While a posse of students searched for him he walked 12 miles to Mascota Station and boarded a train for Boston. He was captured on the train by Sheriff Murray, who took from him an automatic pistol and obtained a confession in which Mendis claimed he fired in self-defense.

When arraigned before Judge Harry E. Burton on the murder charge, Mendis waived examination and was held without bail for the September murder jury. He was taken to the county jail at Woodsville. He announced that his defense would be directed by his father, A. R. Mendis of Chicago, who is an attorney.
